

RECORE DLC Pre-Order Redemption Instructions

How do I redeem my token or QR code?

On your Xbox One

1. Say "Xbox, use a code," or select Use a code from the Games store.
2. If you have a QR code, hold it where the Kinect sensor can scan it. If your Kinect can't read the code, see Kinect troubleshooting.
3. If you don't have a QR code, or your code does not scan properly, select Enter the 25-character code.
4. Use the on-screen keyboard to enter your 25-character token code. Don't worry about hyphens, the system will take care of those for you.
5. When your code is redeemed, you'll receive a confirmation message.

On Xbox.com

1. Visit the Redeem Code page on Xbox.com.
2. Enter your 25-character token code. Don't worry about hyphens, the system will take care of those for you.
3. Click Redeem Code. You'll receive a confirmation message.
